Domus Line design

Recessed LED profile

Materials:

aluminium, PMMA, thermoplastic polymers

Finish:

white

Lighting source:

HE LED module (120 LED/m)

UHE LED module (240 LED/m) - on request

Wiring:

2000mm

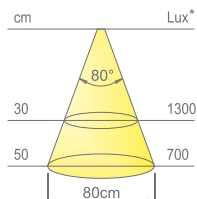

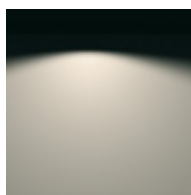

Application type:

under cabinet, under shelf

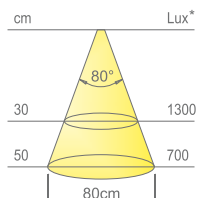

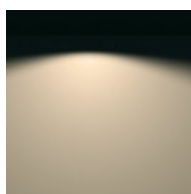

Installation:

recessed

ICY is a symmetrically projecting profile for recessed installation. It can be combined with an electronic touch dimmer switch, and is ideal for installation under cabinets or shelves using a blind groove. Custom versions for through-milled grooves are available on request.

ICY HE
without switch

ICY HE has no electronic switch, and is turned on and off using an externally remote switch.

ICY HE TD
with touch dimmer switch

ICY HE TD has an electronic touch dimmer switch, which adjusts the brightness and turns the luminaire on and off "at a touch".

SMART FITTING SYSTEM

ICY is equipped with a smart fitting system using a steel clip with lateral pressure. This allows the profile to be installed quickly with no need for glue. The system also means the profile can easily be removed from the milled groove if necessary.
