Domus Line design

Flexible LED modules with Plug&Play connection system

Materials:

flexible LED strip with adhesive

Covering:

high reflectance paint

Light source:

static light LED module

Number of LEDs:

60 LED/metre

Application type:

universal

Installation:

surface or integrated into the profiles

FLEXYLED CH 2.0 is a strip with 60 LED/metre supplied in rolls of 5 & 20 metres, divisible every 5 cm and fitted with an innovative Plug&Play cable system which allows you to create custom lengths without the need for complicated wire soldering. The new CH 2.0 connection system, just 10.5 mm wide, allows you to incorporate the LED strip into various profiles in this collection.
